JOB DESCRIPTION

SHELADIA Associates, Inc. is currently seeking WASH experts for a number of upcoming projects in West & East Africa, Central and South Asia. All positions will be on-site and project based. Highly qualified professionals with extensive experience in Water Supply and Sanitation development projects are encouraged to apply.

Areas of Focus

- Detail Engineering Design of Water and Sanitation Infrastructure - Urban and Rural
- Construction Management / Supervision of civil works contract in Small – Medium scale WASH infrastructure
Technical Assistance / Capacity Building and training for government officials, stakeholders, etc.
- Design, development, and implementation of WASH strategies
- Expertise mobilizing and supporting management structures for WASH services at the household, community and institutional levels
- Sanitation service chain, sewerage and fecal sludge management
- Assisting with production of RFPs, RFQs, or BOQs and participate in the selection of proposals and bids submitted by offerors for civil works contracts

QUALIFICATIONS

10+ years of experience on rural and urban WASH infrastructure assignments funded by multilateral banks (WB, AfDB, ADB) and /or bi-lateral donors (DFID, USAID, MCC). Master's degree preferred. Fluency in English with proficiency in French or Portuguese desirable.

ABOUT THE ORGANIZATION

SHELADIA Associates, Inc. is an award-winning, multi-disciplinary A&E firm with a reputation for excellence in Transportation Infrastructure, Rural Development, Water Resources & Sanitation, Structures and Facilities, and Energy. We provide technical assistance and consulting services in numerous sectors, including agriculture; architecture; energy; irrigation and water resources; transportation; water supply and health; and education for government agencies, communities, and other stakeholders. We also offer assistance in procurement and sector-wide monitoring & evaluation. Services provided include construction management, detailed design, planning, feasibility studies, procurement assistance, specifications development, drafting of terms of reference, tendering assistance, contract management, institutional strengthening, training, and capacity building.

SHELADIA has worked in Africa, Asia, and the Americas, successfully implementing projects for US Government Agencies such as USAID, multi-lateral agencies (World Bank, ADB, African Development Bank), host governments, and private sector clients. We are dedicated to crosscutting areas of procurement, monitoring and evaluation, private

sector participation, and social development, which have also been a key element of many of our projects in all sectors.
